Re: EPA-R8-2014-006256

Dear Ms. Epifano:

The U.S. Environmental Protection Agency (EPA) Region 8 Underground Storage Tank (UST), Solid Waste and Polychlorinated Biphenyl (PCB) Unit has reviewed its records and does not have any information regarding "USTs (underground storage tanks), ASTs (aboveground storage tanks), LUSTs (leaking underground storage tanks), LASTs (leaking aboveground storage tanks), the removal of tanks, soil reports, remediation documentation, or other hazardous waste information" for the property located at 4750 Kingston Street, Denver, Colorado, 80239.

In Region 8, Colorado has been delegated UST regulatory authority (primacy) and is the primary implementer of the state UST program. Subtitle I of the Solid Waste Disposal Act allows state UST programs approved by the EPA to operate in lieu of the federal program. The Colorado Department of Labor and Employment, Division of Oil and Public Safety, may have information that is responsive to your request. They can be contacted at:
